

Homeowners Insurance

Does your client have a home or condo in Mexico? If so, where are they insuring it, and with who? Mexico homeowners insurance is significantly different from US style HO-3 and HO-5 policies. Meaning there may be a different expectation of coverage than what really exists. With the ACE Seguros SA de CV Homeowners policy available from CenCal you can get US style coverage from a quality Mexico homeowner's insurer. Need a more basic dwelling style policy? That is also available. With our quick quote you can get an accurate quote in minutes and bind a few minutes later. Want to put a link on your site to allow clients to quote online? CenCal can make that happen too. See below for more highlights, log into CenCalins.com, or call us today at 877-774-2868. Homeowners Highlights include:

- Special (Open Peril) Form Coverage for the Dwelling and Personal Property (HO-3 or HO-5)
- Replacement Cost for the Dwelling and Personal Property
- Earthquake
- Hurricane, Flood, and Tidal Wave
- Low Fixed Deductible Options
- Included Renters Liability
- No Sub-limit for Electronic Equipment
- Increased Limits for Special Property
